The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Vieau.

The supply roll 12 carrying ink from reservoir 24 has the ink metered by anilox roll 14 to produce a primary flow. A second roll 36 meters a second flow on the supply roll which returns ink to the reservoir. The rolls 14 and 36 serve to direct a third flow from the pool unto the anilox roll. Column 2, lines 51-52 recites that this constantly bathes with ink the surface of roll 14 which ink fills the cells of printing plate roll 16. Column 3, lines 41-44 recite the function of roll 36 is to act as a dam to control the flow of ink from the pool back to the well 24. The dam causes the ink flow to be continuous and constant in returning to the well 24.

Claims 2 and 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2854

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
